Other News

As a reminder, your officers are available to you to help with identifying and integrating new members, mentoring affiliate members' presentations, or any questions you have. For more information about the Angle North Atlantic, visit <http://www.anglenorthatlantic.org/>.

Obituary

It is with sadness that we report the passing of Marshall Deeney, DDS, in June 2010, after a brief bout with pancreatic cancer. Marshall is a past president of the Angle North Atlantic Component and was a part-time faculty member at the Eastman Institute of Oral Health (EIOH, formerly the Eastman Dental Center) for 33 years—beginning immediately after completing his residency in 1977. For the last couple of years, after leaving private practice, Marshall served as the Orthodontic Program Director of EIOH. He received many Part-time Faculty Awards and the Iranpour Award for Excellence in Clinical Education at EIOH. In 2008, he received the AAOF Faculty Development Award.

Immediately after receiving his B.S. and D.D.S. degrees from the University of Toronto he practiced general dentistry with his father for four years.

Marshall led by gently nudging you in the right direction. He started as the captain of three varsity teams in high school. As the instructor of the Biomechanics course, he would lead you to the correct answer by building on what you already knew. He relished teaching and orthodontics and his enthusiasm was contagious.

Marshall is survived by his wife Marie-Elena, children Beth, Drew, and Patrick, and grandchildren. Of course all of us will miss his easy-going strength of character.
